**Subject:** West Lake Landfill, question on haul routes (was RE: AG takes two actions today on Bridgeton Landfill situation)

With Matt's help I found the answer to the haul routes question. Here's my proposed response. I've placed the referenced North County ROD on the H: drive, not in a subfolder, for reference.

The US Army Corps of Engineers' ROD for the North St. Louis County FUSRAP sites, dated September 2005, page 2-17, discusses the "intersection sampling effort" that the FUSRAP program conducted on the routes between the Hazelwood Interim Storage Site (HISS) and West Lake. The ROD states that "None of the samples collected exhibited radionuclide concentrations exceeding the proposed surface and subsurface soil remediation goals identified in this ROD." Further information on these results can be obtained from the USACE FUSRAP program.

Principles and integrity are expensive, but they are among the very few things worth having.

**Subject:** FW: AG takes two actions today on Bridgeton Landfill situation  
**Importance:** High

AG has sent letter to EPA calling on the agency to test offsite. We should prepare a desk statement.

Hi Chris,

I'm not the one covering this for us today, but does R7 have any comment or response?

Thanks,

Veronique

## **Attorney General Koster announces two actions today on Bridgeton Landfill situation --AG sends letter to EPA, asks Court for trial date in lawsuit--**

**Jefferson City, Mo.** – Attorney General Chris Koster today initiated two actions related to the Westlake Landfill site in Bridgeton, Missouri.

First, Koster sent a letter to EPA Regional Administrator Karl Brooks calling on the EPA to test for radiological contamination in the community surrounding the Westlake Landfill, focusing specifically on routes used during the 1970s to haul radiological material from the Latty Avenue storage facility to Westlake.

Second, Koster filed a motion in St. Louis County Circuit Court asking the court to set its pending lawsuit against Republic Services for trial.

The letter to the EPA and the motion filed in St. Louis County Circuit Court are attached.
